

WE MAKE TRANSITIONS EASY FOR SENIORS

We understand the “fish out of water” feeling that occurs when life changes become difficult to manage, limiting the ability to stay fully independent.

At these times, you can rely on Continuum. We are elder care experts who specialize in services and products that empower you and your loved ones.

Such transitions may seem like a huge jump—and we can help your family be stress-free, worry free, and secure.

THE CONTINUUM DIFFERENCE

What makes Continuum different from other home care companies?

Personalized Care Plan

Trained and degreed eldercare experts provide an initial *free* in-home consultation and assessment to develop a personalized plan of care detailing all of your needs. This enables proper ongoing assessment and oversight so that as care needs change we can assist every step of the way. Our social worker or nurse then meets with our scheduling manager to discuss what you require in a caregiver. In doing so, we ensure that your caregiver is the most appropriate person for your situation.

Quality Assurance

Continuum guarantees that every shift will be covered. We have staff on call to ensure that you get the care you need and desire. Our 24/7 managerial and supervisory support allows you to be in touch with Continuum whenever you need us. Additionally, a social worker, nurse, and supervisor are assigned to every client we serve to ensure that your personalized care plan is being followed to your satisfaction. We keep ongoing documentation in your home detailing all essential information so that our caregivers can observe daily behaviors and our supervisors can verify that we are providing the services you have requested.

Investing In Our Staff

Continuum has one of the most extensive hiring programs in the industry. Before someone enters your home, they have had a face-to-face interview, local and national background checks, a personality assessment, a drug test, reference checks, driving record check and employee disqualification list check. Our day-long orientation consists of skills verification and on-site training in our state-of-the-art training room. Our staff are required to attend ongoing trainings for the duration of their employment with us to ensure that they have the tools to provide the care our clients deserve, and our social workers and nurses provide specific training based on the individual needs of each client. For your safety and security, all of our employees are bonded and insured. We only hire caregivers we would feel comfortable with caring for our own loved ones.

Please call **(314) 863 – 9912** or **(636) 861-3336** for more information!
