

WE MAKE TRANSITIONS EASY FOR SENIORS

We understand the “fish out of water” feeling that occurs when life changes become difficult to manage, limiting the ability to stay fully independent.

At these times, you can rely on Continuum. We are elder care experts who specialize in services and products that empower you and your loved ones.

Such transitions may seem like a huge jump—and we can help your family be stress-free, worry free, and secure.

PRODUCTS

Advancements in technology have made aging in place both convenient and comfortable. Continuum is proud to offer these independence-enhancing products to our clients.

Direct Link Medical Alert System

For times when a caregiver is not present, Continuum’s Medical Alert System eliminates the anxiety of falling or having a medical emergency without anyone knowing. The emergency button wirelessly connects to the monitoring device which contacts the 24/7 call center. The operators will dispatch an ambulance when necessary, notify a family member of your situation, or have a neighbor check on you in a non-emergency. Enjoy peace of mind knowing help is always within reach!

- Emergency button can be worn as a pendant, wristband or belt clip
- FREE 2nd transmitter placed in the bathroom
- No long-term contract required
- Lock box available for easy emergency entry into your home
- We will match or beat any price!

Electronic Medication Dispenser

Continuum’s medication dispensers are perfect for seniors taking multiple prescriptions. Nearly half the seniors entering nursing homes do so because they are unable to self-medicate, and many hospital admissions are due to medication non-adherence. We can provide the ideal solution: the dispenser automatically dispenses the correct dosages at pre-set times, allowing for peace of mind and continued independence.

- Loads up to 4 doses per day
- Unit closes under lock and key, not just a latch
- When a dose is ready, an alarm sounds and a red light flashes
- If the dose isn’t taken, the 24-hour Care Center is alerted and will call to remind you; if there is no answer, they will notify a family member or friend
