

Care Management That Simplifies Your Life and Improves Care

What Is Care Management?

Continuum's care managers help clients and families navigate through the overwhelming network of long-term care resources, select the providers that are right for their needs, and provide supervision and follow-up for safety and well-being.

Who Can Benefit from Care Management?

- Individuals in need of assistance to manage independence
- Those facing changes in health, ability, or mental status or those with chronic care needs
- Family members who want to ensure a loved one's health and safety
- Anyone in need of additional support or services

What Services Do Continuum's Care Managers Provide?

Advocacy and Mediation – Giving a voice to client concerns while providing counsel and resolving issues among support systems

Care Planning and Management – Completing comprehensive assessments and home visits to establish a plan of care and provide monitoring of a client's life situation

Guardianship – Serving as a client's legal guardian to ensure he or she is well cared for and safe

Resource Referral – Researching, arranging, and coordinating resources to meet client care and housing needs

Medical Management – Coordinating with physicians and other service providers on appropriate medical care and medication

Let Continuum Simplify Your Search for Better Care Solutions

Continuum's highly-trained nurses and social workers are experienced in performing assessments, developing care plans, coordinating care with medical, legal and fiduciary professionals, and more.

Solutions are just one phone call away.
