Unique Options to Pay for Care at Home

Long-Term Care Insurance

Long-term care insurance covers care services that assist with activities of daily living, such as bathing, eating, or dressing.

Medicaid

We currently accept Medicaid for two of our service offerings: Family Hire and Adult Day Services.

We're happy to help you explore additional payment options, such as selling life insurance policies, using equity in your home to pay for care, and exploring additional benefits for which you may qualify.

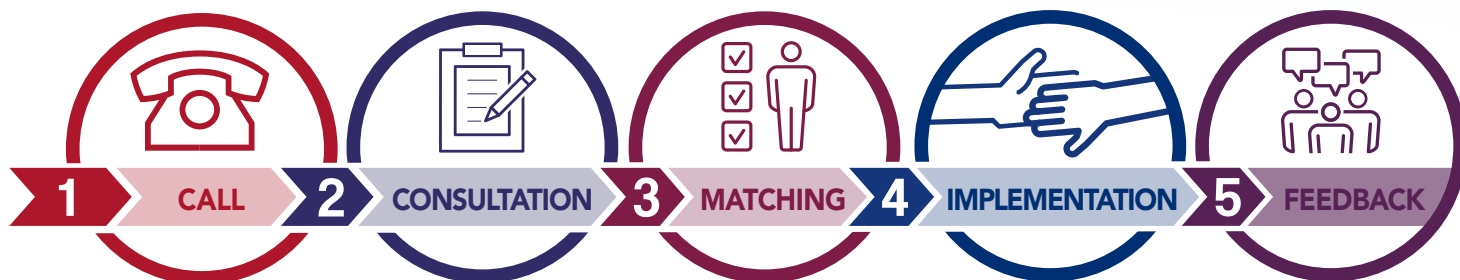

Sell Your Home to Stay at Home

This home buying option enables independent living in the comfort of home. Receive cash from the sale of your home, remain there as a renter if you choose, and use the cash however you decide, including paying for care services or any other needs you have.

Veterans Aid & Attendance Benefits

Veterans over the age of 65 and their spouses may be eligible to receive free care based on their needs.
